MATH 340 · UNIVERSITY OF SAN FRANCISCO

Check In #1

Due Monday, November 23

This check-in is optional. It is a chance to show me where your project stands, and to make sure your plan for the rest of it is on track before Thanksgiving break. Write a response that covers each of the following.

1. **What you have done so far.** Describe the work you have done on your project: what you have read and learned, what you have worked out, and anything you have written or computed.
2. **What more you propose to do.** What do you plan to do between now and the final paper? Be as specific as you can.
3. **Is this plan appropriate?** Ask me whether your plan is appropriate for your project, and tell me about anything you are unsure of.
